Catania - Italy

Experienced in .NET development, branching into Angular and Python, with a strong command of SQL.

Passionate about advancing in DevOps, Kubernetes, and Linux infrastructure, while maintaining a lifelong fascination with science and the cosmos.

Skills

Programming languages: JavaScript, TypeScript, HTML, CSS, C#, Python, SQL.

Framework: Angular, .NET, Lit, Flask, ExpressJS.

Other: Kubernetes Linux, Git, Docker, Webpack, Rollup, OOP, Ajax, Json, Websocket, Rest API, NPM, Yarn.

✳ Work Experiences

▪ Full-Stack Software Developer at BaxEnergy

At BaxEnergy, I am a Full Stack Developer with a strong emphasis on backend development, coding primarily in .NET. My role also extends to frontend and DevOps sometimes, writing Kubernetes configurations, and implementing real-time communication technologies such as MQTT and RabbitMQ. My work contributes directly to the advancement of sustainable energy technologies.

 **October 2022 - now**
BaxEnergy Italia Srl

▪ Full stack Angular/C# developer

I worked at ntFrame Solutions s.r.l. as a full-stack web developer using Angular 10, C# 9, Firebird, and SQLite. I maintained several modules for the main management application, as well as the application itself, and I created a new application for the cash points in the supermarkets.

 **September 2020 - April 2022**
ntFrame Solutions s.r.l.

▪ Python/Qt5 developer

That was a school experience during the summer, when I worked in the IT department at STMicroelectronics as a Python desktop developer using Qt5.

 **May 2019 - July 2019**
STMicroelectronics

Education

▪ High School Diploma in Computer Science and Telecommunications

 **September 2015 - July 2020**
IIS Enrico de Nicola
Result: 100/100

▪ Computer Science Engineering

 **October 2020 - resigned 2021**
DIEEI - Università di Catania

▪ Computer Science and Mathematic at UniCT

 **October 2021 - resigned 2022**
DMI - Università di Catania

Certificates

▪ Cambridge English - level B1
